

School Performance Fact Sheet – Hack Reactor Remote (12 weeks) 2014 & 2015 Calendar Years

Pursuant to California Education Code section 94934, the BPPE has directed Hack Reactor to omit our graduates from 2014 and 2015 from this document. (This is because Hack Reactor was not approved by the BPPE until 2016.) Those guidelines also direct Hack Reactor to inform you of the following:

This program is new. Therefore, the number of students who graduate, the number of students who are placed, or the starting salary you can earn after finishing the education program are unknown at this time. Information regarding general salary and placement statistics may be available from government sources or from the institution, but is not equivalent to actual performance data. We expect to have data for 2 full calendar years in 2018.

Independently-audited data from 2015 is available at <http://www.hackreactor.com/outcomes>. This information was compiled and released by Hack Reactor independently from the annual School Performance Fact Sheet process.

² "Students available for graduation" is the number of students who began program minus the number of students who have died, been incarcerated, or been called to active military duty.

³ "Number of On-Time Graduates" is the number of students who completed the program within 100% of the published program length within the reporting calendar year.

⁴ "On-Time Completion Rate" is the number of on-time graduates divided by the number of students available for graduation.

⁵ "Graduates available for employment" means the number of graduates minus the number of graduates unavailable for employment. "Graduates unavailable for employment" means the graduates who, after graduation, die, become incarcerated, are called to active military duty, are international students that leave the United States or do not have a visa allowing employment in the United States, or are continuing their education in an accredited or bureau-approved postsecondary institution.

⁶ "Graduates Seeking Employment" is the number of students who explicitly opted in to job search assistance with the intent to find and accept a job post graduation. This category excluded students who upon graduation: had invalid immigration statuses to seek employment in the United States, entrepreneurs or those who chose self-employment, were employed full time by the school, or halted the job search due to personal or family emergencies.

⁷ "Placement Rate Employed in the Field" is calculated by dividing the number of graduates gainfully employed in the field by the number of graduates available for employment.

⁸ Salary is as reported by the student. Not all graduates report salary. A list of the employers of the Graduates Employed in the Field can be obtained from info@hackreactor.com.
